

Hi,

I'm emailing in support of SB004 ("An act concerning the connecticut clean air act"), specifically the e-bike rebate and emission offsetting. I'm also in favor of HB 5291. I've used the greenway's in CT for both transportation and recreation; for example, going from UConn to Norwich, and UConn to the Windham Walmart, and I think we need more of them.

Thanks,

Jordan
